60353/ 60610	Affective Aspects of Behavior/ Social Aspects of Behavior	3	Spring Odd Years	3 or 4	Yes
61385	Practicum I	3	Every Fall	2	Yes
61386	Practicum II	3	Every Spring	2	Yes
61387	Practicum III	3	Every Fall	3	Yes
61388	Practicum IV	3	Every Spring	3	Yes
62381	Practicum Lab I: Foundational	1	Fall	2	Yes
62382	Practicum Lab II: Advanced	1	Spring	2	Yes
65395 65396	Non-Resident (-5) ***or*** Resident (-6) Internship in Clinical Psychology	3	Every Semester	3	Yes
Required Departmental Courses					
60100/ 61100	Quantitative Methods I **+** Lab	3 + 1	Every Fall	1	Yes
60101/ 61101	Quantitative Methods II **+** Lab	3 + 1	Every Spring	1	Yes
The Clinical Science Program also requires <u>one additional course</u> in advanced research methods/ statistics.					

American Psychological Association Core Areas

The accreditation standards of the *American Psychological Association* require clinical-area students to be exposed to the current body of knowledge in certain core areas of Psychology. Students also may propose other courses or experiences for gaining satisfactory exposure to these areas and for demonstrating competency in the subject matter. Clinical faculty preapproval of such arrangements or coursework is required and must be sought via a petition submitted to the Director of Clinical Training.

Asterisks denote courses that partially* or fully** satisfy each core area's criteria. In cases of partial fulfillment, students should confer with the Director of Clinical Training to ensure that their proposed combination of courses is sufficient for the requirement.

Course #	Course name	# CR	When offered	Year	Req?
Social Aspects of Behavior					
60340	Socio-Emotional Development*	3	Every1-2years	1+	No
60610	Social Aspects of Behavior **	1.5	Odd Springs	1 or 2	Yes
Individual Differences[a]					
60310	Psychopathology*	3	Every Fall	1 or 2	Yes
