

## Curriculum Vitae

**KATHLEEN N. BERGMAN, PH.D.**

*Research Assistant Professor*  
Department of Psychology  
University of Notre Dame

South Bend Office:  
E346 Corbett Family Hall  
Notre Dame, IN 46556

Fort Wayne Office:  
408 South Scott Road  
Fort Wayne, IN 46814

Contact:  
Phone: 574-631-0956  
Email: kbergman@nd.edu

### EDUCATION:

#### **Ph.D., Developmental Psychology, University of Notre Dame, 2013**

Concentration: Developmental Psychopathology

Dissertation Title: *Disentangling Patterns of Influence: Marital Conflict and Adolescent Adjustment*

Advisor: E. Mark Cummings, Ph.D.

#### **M.A., Developmental Psychology, University of Notre Dame, 2011**

Concentration: Developmental Psychopathology

Thesis Title: *The Impact of Interparental Aggression and Parental Alcohol Use on Adolescent Adjustment: An Emotional Security Perspective*

Advisor: E. Mark Cummings, Ph.D.

#### **B.A., Psychology (with Honors), Calvin College, Grand Rapids, MI, 2007**

Major: Psychology, Minors: Gender Studies, Business

### ACADEMIC APPOINTMENTS:

Research Assistant Professor, University of Notre Dame, 2017 – present

Director, Fort Wayne Center for Children and Families, University of Notre Dame, 2017 - present

Research Scientist, University of Notre Dame, 2016 – 2017

Postdoctoral Research Associate, University of Notre Dame, 2013 - 2016

### RESEARCH POSITIONS:

Principal Investigator, Happy Families Project, Department of Psychology, University of Notre Dame, 2021- present

The Happy Families Project, funded by an R01 grant from NIMH awarded to MPIs Cummings, Bergman, and Borkowski, is an effectiveness trial of a curriculum to improve family communication taking place in South Bend, Indianapolis and Fort Wayne, IN. Research aims include evaluating program efficacy for addressing mental health concerns in youth and adults, analyzing mechanisms associated with change as a result of the program, and evaluating organizational factors associated with program implementation, scalability and sustainability. As a PI on the project, I am involved in all aspects of study development, program development and implementation, hiring and managing staff, overseeing undergraduate and graduate student roles, community engagement, participant and community site recruitment and retention, training, IRB requirements, maintaining progress toward research goals and data collection, management, coding and analysis.

Principal Investigator, Representing Historically Excluded Families in Intervention Research, Department of Psychology, University of Notre Dame, 2021- 2024

I am the lead PI on a related project funded by the Anthem Foundation which explores questions related to intervention program effectiveness, implementation, scalability and sustainability in *historically excluded minority communities* in Fort Wayne, IN. For this project, I collaborate with the Fort Wayne Urban League and other local organizations to recruit racially and ethnically diverse families and program facilitators to increase representation on both sides of the Happy Families effectiveness trial. The scope of this project was expanded at the end of 2023 to include translation of all program materials into Spanish, piloting Spanish-language materials, and conducting focus groups to evaluate cultural sensitivity and relevance. This work is scheduled to be complete by the Spring of 2024.

Project Director, Department of Psychology, University of Notre Dame, 2016 – present

In my role as Project Director for the Notre Dame Supporting Parent-Adolescent Relationships and Communication (*ND-SPARC*) Project, which is supported by an NIH-R01 grant entitled *Families of youth with developmental disabilities: A theory-based intervention* (awarded to PIs Cummings and Diehl), I am responsible for the coordination and oversight of the day-to-day operations of the project across data collection sites. I was heavily involved in the development, writing and associated preparation of the successful NIH grant proposal, which received a first percentile score from NIH reviewers. I contribute to all aspects of the implementation of the project, including managing staff, coordinating research personnel and overseeing participant recruitment and data collection efforts across sites. In the wake of the COVID-19 pandemic, I led the transition of the program content to a completely virtual format, including the development of new project protocols and content that can be delivered electronically, including new procedures and psychoeducational materials that maintained conceptual consistency but were accessible to online participants. This also necessitated retraining all staff, students and interns working on the project and redesigning approaches to participant recruitment, screening and retention. I also continue to be involved with training behavioral coders and implementing the FICS observational coding system for assessing family functioning in several

longitudinal samples, and have maintained a focus on supporting undergraduate students pursuing their own research directions associated with Summer Research Programs and the University Thesis Program.

In my concurrent position as Project Director on the Notre Dame Families and Babies Study (2016 - 2021), which was supported by an NIH-R01 grant entitled *Efficacy of family programs for improving child and family health and development* (awarded to PI Braungart-Rieker (PI), Co-Is Cummings and Wang), I contributed to the development and implementation of project content (e.g. psychoeducational content, recruiting materials and community outreach, fidelity assessments, etc.), community outreach, training and management of staff, data collection, participant recruitment and project management.

Both federally funded projects involved two sites--one in the greater South Bend area and the other in the greater Fort Wayne area; I have been responsible for establishing our remote research site in Fort Wayne, IN, and seeking external funding to support operations and infrastructure there. I am responsible for maintaining the research site in Fort Wayne; managing multiple projects collecting data in the Fort Wayne area; hiring, training, and supervising separate teams of staff and student interns for each project; coordinating the intervention and data collection efforts of staff and students across both sites; coordinating recruitment and maintenance of families for each project. ND-FABS will involve nearly 400 community families across sites, and ND-SPARC will involve 150 higher-risk families (families with children with intellectual and/or developmental disabilities, including autism) across the two sites. I have also established a research internship program in Fort Wayne which has provided research and professional development opportunities for undergraduate and graduate students from in and around Fort Wayne, including training on developmental psychopathology, theoretical frameworks informing family research, family research methods, study design, method development, program implementation, and data analysis and dissemination, among other topics.

Finally, I remain committed to assisting in the analysis of data and dissemination of research results through conference presentations, book chapters and reference works, and peer reviewed research journals, based on these intervention studies and others, and to including undergraduate and graduate students working on our projects in training opportunities and on publications and presentations to support their professional development and enrich their research experiences.

Communication and Family Relations Project Director, Department of Psychology, University of Notre Dame, 2014 - 2016

Responsibilities included program development and piloting for a project aimed at improving communication in families that include a child with an intellectual or developmental disability, grant writing, and the implementation and training on a theoretically informed observational coding system I developed to provide focused and theoretically-informed assessment of dyadic and triadic family functioning and program efficacy. In order to maximize sample sizes and increase efficiency, I took on

responsibilities involved with developing multiple satellite locations for two preventive intervention programs, including establishing and maintaining connections at remote locations and procuring support from institutions and organizations for staffing, recruiting and collecting data from participants in other cities. In addition, I was involved with ongoing program evaluation and data analysis for the original prevention/intervention program aimed at community families and the development and preparation of several empirical research papers. In my role as the project director for the now complete pilot study, I also worked closely (one-on-one and in groups) with undergraduate and graduate students and staff in a training/mentoring capacity. Finally, I was also involved in teaching activities, including managing students' laboratory hours, training and grades, and assisting with the development of several new course syllabi.

Postdoctoral Research Associate, Department of Psychology, University of Notre Dame, 2013 - 2014

Responsibilities included program evaluation and data analysis for an ongoing psychoeducational prevention/intervention program aimed at improving communication in community families with teenagers, program development for extensions of the current prevention/intervention project to high risk families, grant writing seeking support for a longitudinal study on family functioning, adjustment and sleep in emerging adults, as well as the development and implementation of a theoretically informed observational coding system to assess triadic family functioning and program efficacy.

Graduate Student Research Assistant: The Me and My Family Project  
Family Studies Center, University of Notre Dame, 2008-2013

Responsibilities included data collection and analysis, training and mentoring undergraduate research assistants, becoming reliable on multiple coding systems to assess family functioning in the context of triadic interactions, selecting measures for subsequent phases of data collection and assisting with grant writing for continued NIH funding for the dual-site longitudinal study.

**GRANT APPLICATIONS AND FELLOWSHIPS, SUBMITTED AND AWARDED:**

R01 MH124958, National Institute of Mental Health, Cummings (PI), Bergman (MPI), Borkowski (MPI)  
Role: MPI

Project Title: *Effectiveness of an Empirically Supported Family Intervention: Mental Health Outcomes, Mechanisms of Effect, and Organizational Factors*

Total amount: \$3,043,771. Funded.

Anthem Foundation Grant, Fall 2020 Cycle, Bergman (PI). “Expanding Research and Support for Families in Fort Wayne.” \$75,360. Funded.

SIA (Subaru of Indiana Automotive, Inc.) Foundation Grant, 2020 Spring Cycle. “Strengthening and Educating Families Across Indiana.” \$9,822.38. Not funded.

Central Indiana Community Foundation, 2019 fall cycle. “Supporting Families in Northwest Indianapolis.” \$204,635.00. Not funded.

Allen Wayne Services Foundation (AWSF), 2018 spring cycle. “Supporting Families with Disabilities in Fort Wayne: A five Year Research Program.” \$1,933, 363.00. Not Funded.

3 R01 HD088482-02, supplemental grant to National Institute of Child Health and Human Development for R01 HD088482. “Families of Youth with Developmental Disabilities: Advancing the objectives of the INCLUDE project in an existing clinical trial.” \$250, 747. Not Funded.

Allen Wayne Services Foundation (AWSF), 2018 fall cycle. “The Notre Dame CCF-FW: Supporting Families in Fort Wayne.” \$409,958.90. Not Funded.

Allen Wayne Services Foundation (AWSF), 2018 Mighty Money Grant. “Establishing the Notre Dame Center for Children and Families in Fort Wayne: Marketing and Recruiting” \$2,000. Not Funded.

R01 HD088482, National Institute of Child Health and Human Development, Cummings (PI), Diehl (MPI)

Role: Key Personnel (Project Director)

Project Title: *Families of Youth with Developmental Disabilities: A Theory-Based Intervention*

Total amount: \$3,557,267.00. Funded.

SIA (Subaru of Indiana Automotive, Inc.) Foundation Grant. “Notre Dame Family Studies –Fort Wayne.” \$10,000. Not Funded.

Ruth L. Kirschstein Institutional Research Award for Predoctoral Training in Mental Retardation to John G. Borkowski, Ph.D., and Thomas L. Whitman, Ph.D. Funded.

Institute for Scholarship in the Liberal Arts - Graduate Student Professional Development Grant. Funded.

Judge G. A. Farabaugh Graduate Student Fellowship. Funded.

Graduate Student Travel Grant, Department of Psychology, University of Notre Dame. Funded.

Gordon Conference Presentation Grant, Graduate Student Union, University of Notre Dame. Funded.

*Psychoneuroendocrinology* (2016 - 2018)  
*Child Psychiatry and Human Development* (2013)

**Grant Reviewing:**

OPRE/ACF, Secondary Analyses of Head Start Data Grants, Review Panel Chair (2023)  
OPRE/ACF, Family Self-Sufficiency Demonstration Development Grants, Grant Reviewer (2021)  
National Institutes of Health, R34 Awards, Grant Reviewer (2020)  
OPRE/ACF, Secondary Analyses of Strengthening Families Datasets, Review Panel Chair (2020)  
OPRE/ACF, Secondary Analyses of Strengthening Families Datasets, Grant Reviewer (2014)

Developmental Studies Group Co-Chair, 2010 - 2011

**MEMBERSHIPS IN PROFESSIONAL ORGANIZATIONS:**

American Psychological Association (2017 - present)  
Association for Psychological Science (2017 - present)  
National Postdoctoral Association (2013 – present)  
Society for Research in Child Development (2009 – present)

**CERTIFICATIONS:**

Nonprofit Board Leadership, 2021

**ADVANCED QUANTITATIVE AND METHODOLOGICAL TRAINING:**

System for Coding Interactions and Family Functioning (SCIFF)  
Dr. K. Lindahl and Dr. N. Malik, University of Miami  
Training workshop on the use of the SCIFF for assess family functioning in the context of parent-child triadic interactions

Salivary Analyte Basics for Behavioral and Social Scientists  
Dr. D. Granger, Salimetrics, LLC, State College, PA

Training workshop on the use of salivary cortisol in developmental Psychology, including research design, sample collection, assay procedures, and data analysis.

**Grant Proposal-Writing Workshop**

Dr. Peg AtKisson, Grant Writers' Seminars and Workshops, LLC

Intensive grant writing workshop program resulting in a competitive grant proposal following GWSW guidelines.

**ADVANCED QUANTITATIVE TRAINING:**

Quantitative Methods I, II; Multivariate Analysis; Longitudinal Analysis  
(knowledge of SPSS, SAS, R, MPlus statistical programs)

**TEACHING EXPERIENCE:**

Thesis Mentor, 2023 – present

NSBH Honors Program senior thesis: Sabrina Takagishi, Ethan Horvath

Thesis Mentor, 2021 – 2022

University Honors Program senior thesis: Xolisa Ngwenya (2022 Library Research Award and Digital Scholarship Award Recipient)

College of Arts and Letters Senior Thesis Program: Laura Larrain

Independent Capstone Project Advisor (Public Policy): Paige Cooper

Purdue University Fort Wayne Clinical Internship Program, site director (2019 - present)

Mentor for-credit intern placed at the Notre Dame Center in Fort Wayne for clinical research experience to fulfill departmental requirements.

NDCCF-FW Research Internship Program, Director (2017 – present)

Sarah Bitner, Ella Robertson, Johnathan Nguyen, Emily Linder, Noelle Toliver, Christopher Greener, Karissa Godfrey, Tiffany Seeler, Kathleen Melei, Allie Thiel, Stacey Malinowski, Sarah Wirtz, Riddhi Patel, Megan Hanes, Micaela Kosty, Tiffany Seeler, Megan Butterweck, Megan Palmer, Rebecca Burkhardt, Sarah Jossart, Madison Blair, Ravina Nakum, Madeline Kreill, Maribel DeGuzman, Ariana DeLay, Sarah Cloyd, Roheen Virani, Brittany Ormiston

Dissertation Consultant, Antoinette London-Johnson, Florida State University (2018 – 2021)

Thesis Mentor, 2017 – 2018

University Honors Program senior thesis, Carlie Sloan

University Honors Program senior thesis, Rachel Goldfarb

ISLA Summer Research Project Advisor, 2017

Carlie Sloan, UROP Summer Research Comprehensive Grant Recipient

Project Title: *Adolescent Reactions to Parental Employment*

Luisa Mader, UROP Summer Research Comprehensive Grant Recipient  
Project Title: *Gender Differences in Conflict Perception*

Thesis Mentor, 2015-2016  
University Honors Program senior thesis, Abigail Downey  
College of Arts and Letters Senior Thesis Program, Grace Choe (Santos Award Recipient)

Thesis Mentor, 2014-2015  
University Honors Program senior theses, Jessica Likens and Megan Bracconier

Instructor of Record, Spring 2013  
Course: Developmental Psychopathology

Instructor of Record, Spring 2012  
Course: Developmental Psychopathology
